

# Company Profile and Proposal

Gbolahan Olaniyi and Associates/  
Space Therapy

# PROPOSAL

At Gbolahan Olaniyi and Associates, we pride ourselves not just on being Architects and Interior Designers; we are also certified contractors as well. We specialize in the design of Architectural exteriors and Interior spaces based on the concept of Interior Design. We administer everything from Internal construction to design consultancy. We are members of the International Interior Design Association (IIDA) and the African Association of Interior Designers (AAID). All our works are guaranteed!

Using our knowledge and expertise and experience spanning 8 years, we thoroughly evaluate every project, discuss the client's preferred design ideas, and then provide detailed schematics and graphics so you can visualize your dream office or home even before we start the renovation. Our prices are very competitive, our service par excellence – you can rest assured that once hired, we are always there for you!

We will help you create the most beautiful interior you desire, taking care of all the details for you and ensure you get more than value for money.

We would very much enjoy working with you to realize the potential of your project. Everything in our power will be done to satisfy your requirements, and to make the project enjoyable for you as well.

If you have any questions, please do not hesitate to contact us.

Sincerely,

**Architect Olaniyi Gbolahan As. IIDA FAAID**

## Our Mission

Gbolahan Olaniyi and Associates and Space Therapy is dedicated to providing complete interior design and architectural services, which exceed the expectations of clients committed to achieving a professional, signature interior for their business or home. To fulfil this mission, G.O.A shall abide by and uphold the ethics of the profession of Interior Design including to ensure spaces are functional, safe, enhance lifestyle, are aesthetically pleasing and cost saving as outlined by the African Association of Interior Designers (AAID) and the International Interior Design Association (IIDA); shall seek and promote quality relationships with professional contractors and suppliers of quality components, and shall create an environment to make these services enhance the lives of our clients.

We create interiors, which are contemporary, functional and timeless, growing the potential of your home or commercial property. Modern or classic, we design spaces conducive to work, rest or play for homes, spas, hotels or commercial offices.

Our approach is different to other designers because we prefer to involve the client at every stage of the project. From selecting colours and fabrics to spatial planning and landscaping, we work in partnership with the client.

We will design everything from lighting and window treatments to bespoke rugs or furniture for any room in your home or office. We also manage renovation projects, collaborate with our architects and contractors where necessary and administer planning permission applications on your behalf.

We believe 'detail' is our success story ... whether it is first understanding the client needs, understanding how the building will be used in terms of people traffic or minimising the impact on the planet.

G.O.A understands that without this fine attention to detail many companies just get it so wrong and fail its customers' expectations. The customer always comes first and they are looking for something that little bit special and different
